SUMMARY

To work as a Web developer, using my creative knowledge, is a chance to socialize with people and work hard to develop both the organization and myself to the next successive levels. Eager to apply theoretical knowledge in a practical setting, contribute to organizational goals. Eager to apply my theoretical knowledge in a practical setting and contribute to organizational goals.

SKILLS

- HTML
- CSS
- JavaScript
- Angular Basic
- Bootstrap

EDUCATION

- Adhiyamaan College of Engineering (Autonomous), Hosur – 7.6 CGPA (up to 6th semester)
- Sakthi Matric Higher Secondary School, Chinnasalem – HSC with 84.4%
- Sakthi Matric Higher Secondary School, Chinnasalem – SSLC with 76.2%

INTERNSHIP

Did my one-month Web Development Intern at Octanet Pvt Limited. During that time, I learn and explore new methods of coding and design a website in elegant and scalable code. It helps me to achieve my next step in a practical way.

PROJECT

- Cloud Storage Pricing - It was about the landing page by using the toggle method that shows a price for different durations of time.
- Digital Clock – In this clock, we can set a timer for break and set a party time starting and ending time for a particular time.

AREA OF INTEREST

- Front-End Developer
- Web Designer
